Member Profile

Britta Hornmark-Stenstam
Zonta Club of Eskilstuna, Sweden

Britta Hornmark-Stenstam has been a member of the Zonta Club of Eskilstuna since the Club was chartered in 1983. She had been asked to join a number of other organizations, including Rotary; however, she decided to join Zonta because she wanted to be a part of an organization giving strong support to women in every situation. She was, and still is, firmly convinced that advocacy for women and supporting women all over the world will lead to a better world for everyone. "Whenever I have a chance, I try to support women and I am proud to carry the Zonta pin, hoping for questions or active myself mentioning Zonta and what it stands for," said Britta.

For Britta, the most rewarding aspect of membership in Zonta is meeting with other women and being part of an international movement. The international experience is best felt at convention and district and area meetings, but also in different club meetings. Britta often visits other Zonta clubs when working in other cities in Sweden and abroad and encourages other members to do the same.

As president of her club, Britta organized and invited Zontians from every Zonta club in Lettland (Latvia) to visit her club in Sweden and connect with other Zontians in the District. At the time, the Lettland clubs were rather new to District 21, and the Zonta Club of Eskilstuna was able to arrange an interesting program for the women who visited, including visits to the hospital where Britta works, *EskilstunaKuriren* - the local newspaper, Science Park and the Town Hall.
